AUBI - Agri Urban Buildings Inc.
1123 North Street South
DRESDEN, Ontario N0P 1M0

TO WHOM IT MAY CONCERN

Re: Letter of Reference

I wish to confirm that AUBI - Agri Urban Buildings Inc. have worked on several projects for us in the past. The most recent project includes the LTC Satellite Facility, a \$17 million facility for the London Transit Commission. Prior to this project, they constructed the ICFAR Research Building for the University of Western Ontario which was a pre-engineered Research Laboratory at a cost of \$2.3 million.

AUBI completed the projects in a professional manner and we are pleased with their performance and productivity.

We do not hesitate to recommend this General Contractor for projects that we tender.

If you have any questions, please call.

Yours truly,

SPRIET ASSOCIATES LONDON LIMITED

K. J. McIlmurray, P. Eng., OAA
