To Whom it May Concern:

This letter is written with the purpose of providing a reference for Agri-Urban Buildings Inc., (AUBI), P.O. Box 1000, Dresden, ON N0P 1M0.

We have had the opportunity to contract AUBI for construction work twice. Our first project was a small addition on one of our manufacturing plants. The second was a 90,000 sq. ft. manufacturing facility which included loading docks, several bays, lunch rooms, and two floors of front offices.

We chose them originally because their pricing was extremely competitive. They were very accommodating to our needs, including the planning, networking and phone systems, office layouts for electrical, and any changes we required along the way. They were quick to react to any small issues that arose. Their knowledge of various construction options was evident when we needed suggestions and their professionalism continued through the actions of their employees and contractors.

We are in the process of discussing another major project with AUBI, with plans to start in the spring and look forward to the same success with that project as we have been accustomed.

Sincerely,
