Re: Letter of Reference
Legacy Recreation Centre, Thedford

To whom it may concern

I am pleased to write this letter of reference on behalf of AUBI Construction with regards to their work at the Legacy Recreation Centre in Thedford. Our firm was the architect for the project and I had the opportunity to work quite closely with the site representatives of UABI during the construction phase.

This project involved the addition and renovations to an existing municipal arena and included such components as new dressing rooms, a new Community Hall, a new commercial kitchen, Daycare, and Library. All of the above construction work was performed to comply with LEED Certification, for which this project received a Gold rating. In addition, this project also received the 2013 Parks and Recreation Excellence in Design Award, citing its environmental design as a key factor in its selection.

Throughout the project, I found the services of AUBI to be very professional. They responded to changes on site promptly and provided fair pricing when the situation warranted. Their supervision of sub-trades was consistent and effective. We would have no hesitation recommending them for future work of a similar size or complexity.

If you have any questions about their performance on this project, I would be happy to receive your call.

Sincerely

Peter J. Cook
