To Whom it may concern:

It is my pleasure to recommend AUBI Construction Management to you. For years HVM Holdings has developed many properties and built many buildings for our numerous clients. Over the past few years we have engaged AUBI as our Construction Manager on various projects including two Goodwill Stores and a Maxim Medical. In the near future they will begin construction at a TSC Store and a Medical Building as well.

On each of the projects AUBI has performed very well as Construction Managers. They worked hand in hand with us from the design stage through completion. Every step of the way they looked after our best interests and were able to build our projects on time and on budget. In addition to AUBI's Construction Management skills, they are instrumental at reinforcing all Ministry of Labour requirements, especially regarding jobsite safety of all workers. Their expertise allows them to build a variety of different projects. We find them professional and dedicated to our projects and we will be using them for our future projects.

Yours Truly,

Henry VanMinnen
